

AYC-E55

Convertible Ultra-Slim Piezo PIN Reader / Controller

Unique ultra-slim profile, smooth metallic surface and highly sensitive piezoelectric keys make this unit extremely attractive for all-weather PIN access applications. Fully sealed and epoxy potted in a metal housing, the AYC-E55 offers an exceptionally durable solution for any need.

As part of Rosslare's convertible line of readers/controllers, this unit can be operated as a keypad reader which connects to any standard controller, and converts into a secure 500-users stand-alone controller when connected to Rosslare's PS-x5 family of intelligent power supply/relay units.

General Description

For greater peace of mind, this sturdy access control unit provides a rugged keypad with advanced access control features, in a unique aesthetic and strong housing.

The AYC-E55 offers programmable PIN transmission formats, LED Control and tamper detection, providing extra security and flexibility.

Come rain or shine, this unit can handle the challenge, with its rugged slim design, metallic housing and waterproof enclosure for maximum durability.

The piezoelectric keypad with highly sensitivity keys allows easy and smooth operation, making these units ideal for residential and commercial applications.
