AxtraxNG Licensing

All licensing for AxtraxNG is tied to the Hardware ID of the PC the server is installed on.

To obtain any license you must provide the HW ID, a license file is then generated for the options being purchased and tied to that HW ID only.

To find the HW ID on you system;

Open AxtraxNG Client

Go to Help, Registration

Copy the number that appears in the popup window;

😸 Product Registration	—	×
Hardware ID		
3096-CCC0-D55F-AD22-5DAD-0000		
License File		
Activated		

If AxtraxNG is not installed, you may download a standalone HW ID utility from here; <u>Rosslare_AxtraxNG_HWID_Utility.zip</u>
