AxtraxNG Licensing

All licensing for AxtraxNG is tied to the Hardware ID of the PC the server is installed on.

To obtain any license you must provide the HW ID, a license file is then generated for the options being purchased and tied to that HW ID only.

To find the HW ID on you system;

   Open AxtraxNG Client

   Go to Help, Registration

   Copy the number that appears in the popup window;

If AxtraxNG is not installed, you may download a standalone HW ID utility from here;
Rosslare_AxtraxNG_HWID_Utility.zip
